

## "The blessing of the Lord it maketh rich, and he addeth no sorrow to it." —Proverbs 10:22

Today's text is suggested by Rev. Archdeacon Howcroft, Anglican, Camrose.

### Edmonton Bulletin

EDMONTON'S OWN NEWSPAPER

Founded in 1890 by Hon. Frank Oliver

The Bulletin is the only Edmonton Newspaper Owned, Controlled and Operated by Local Men.

Published every afternoon except Sunday, by the Alberta Free Press Limited, at the Bulletin Building, 984-101 Jasper Avenue, East Edmonton, Alberta, Canada.

CHARLES E. CAMPBELL, Owner and Publisher.

Subscription Price—mail \$1.00 per year, in Canada, \$5.00; United States, \$7.00; by Air Mail, \$10.00; weekly, 15 cents or \$1.75 per year. Telephone 2612.

Advertising Representatives:

VANCOUVER, B.C.—S. Pearce Company, 614-403 West Pender, Vancouver, B.C.

MONTREAL, QUEBEC—W. J. Crowley, 210 St. James Street, W. Phone Bourassa 2-2100.

UNITED STATES—The Bechtel Special Agency Inc., New York Central Building, New York City; General Motors Building, Detroit; The Traveler, 100 Broad Street, Hartford, Connecticut; Building, Kansas and Willoughby Tower Building, Chicago; 4-139 Clark Street, San Francisco, California; 1138 No. 45th Street, Philadelphia.

LONDON, England—The Closser Corporation, Royal Colonial Chambers, 20 Craven Street.

The Audit Bureau of Circulation audits the circulation books of the Edmonton Bulletin.

**IF IT WILL HELP ALBERTA THE EDMONTON BULLETIN IS FOR IT**

**MONDAY, SEPTEMBER 12**

### OTTAWA'S CHOICE

A power company has seized the books of the treasury department of the city of Lévis, Quebec, along with the property of fifty-five taxpayers, because the city has been unable to pay for its supplies.

That will not help the credit of the Province, nor of the Dominion. Sooner or later some way the provincial or federal authority will have to intervene and rescue the embarrassed city from its predicament. What has been done in other provinces, Alberta included, may prove useful.

A somewhat similar situation would develop should some of the western cities break down in the attempt to carry on their economic business without the support of help from Ottawa than they have been getting. And that is what may happen unless the increased federal assistance is forthcoming.

It would not meet matters in those circumstances if Premier Bennett expressed opinion that the western cities have spent more money in past years than they should have spent; nor whether the opinion was considered right or wrong. The province's provincial controller would have to examine the books of the cities. The provinces are at present leaning on the Dominion, the federal government would be directly or indirectly involved in the salvage operation.

What is needed is to see whether the Dominion will be more liberal in helping the cities to meet the relief demands, or whether it will a little later lend a hand to pull some of them out of the mire into which they are floundering in the attempt to meet those demands with the present inadequate amount of federal help.

### LOSS IN THE COSMIC FOG

Camerontor is one of the important air-bases of western Canada, and it is not surprising the recent fire there. It is a favorable condition for aviation in this section of the Dominion. It was perhaps on this account that Professor Millikan of the University of California called on Camerontor to inspect the fire damage.

Seattle—Major Gwynne spent two hours in a witness chair, objecting to the proposal of the city council to institute an aldermanic inquiry into police matters. The demand originated in the murder of Eddie Steffensen.

Seattle—After spending four days in the Arctic, told here is discovering a race of blonde Eskimos.

because teachers' salaries have been kept up while taxpayers' savings shrink. Salaries at present have been all shot to pieces, and those paid at level that offers little inducement to young man or woman to enter the profession and the strongest possible inducement to experience qualities and capabilities to get out of it.

The same or worse conditions must prevail in Saskatchewan and Manitoba, which have been less favored than Alberta in the matter of crops and whose rural populations are less able to maintain their schools.

With such conditions prevailing in the communities, the question is thrust into the foreground whether it is practicable, if it is even possible, to continue to operate the "fledged" universities in these provinces at heavy expense to the taxpayers. It is because of such conditions the possibility of retrenchment has been mooted, and because of them it is certain to awaken interest both widespread and keen.

### Forty Years Ago

From the files of the Edmonton Bulletin

Telegraphic—

General Creepo has headed a successful rebellion in Venezuela.

Blake was denounced at an anti home rule meeting in Toronto.

Heavily persecuted when the schooner Cashier founded off Halifax.

Senator Girard is dying at St. Boniface.

Premier Abbott has left England to get medical advice, and is expected to remain in the country but continues to confine himself until his return.

James Trow, ex-M.P. and Liberal whip, is dead.

Heavily opposed Quebec, was almost wiped out by fire.

John Armstrong of Toronto is dead.

Mercier's estates are offered for sale in Montreal.

Harvest is in full swing in the Edmonton district.

P. B. Karran of Calgary has been awarded the contract for building the new Methodist church in Edmonton.

### THIRTY YEARS AGO

Telegraphic—

Daschbach passed a mile in 2:00½.

The Yukon gold output is at \$12,000,000.

Port Arthur has declined Carnegie's offer of a public library.

Kruger's biography will be issued at Munich.

Dundonald will visit the Northwest Territories.

Local—

Work commenced this morning on the station grounds of the railway at the junction of the Canadian Pacific and the Grand Trunk.

John Ross & Co. will erect an elevator on the station grounds.

Train on time.

### TWENTY YEARS AGO

A party of twenty prominent British financiers arrived in Edmonton last night from the south, under the direction of Mr. M. A. Grenfell, chairman of蒙特利尔的公共福利委员会。

Montreal's department of public works will shortly issue a report on the probable effect of the Panama Canal on shipping. One feature is the opinion that wheat passing through the canal would be subject to a heavy duty.

Yukon—Major Gwynne spent two hours in a witness chair, objecting to the proposal of the city council to institute an aldermanic inquiry into police matters. The demand originated in the murder of Eddie Steffensen.

Seattle—After spending four days in the Arctic, told here is discovering a race of blonde Eskimos.

# Bonus Army Charged As Criminals

## Cow Girl's Steer

It wasn't a nautical costume that smiling Eunice McHale wore, as pictured here, she mounted the bridge of the Grace liner Santa Teresa to help Captain Walter N. Prengel steer his ship. But that gives you a fair idea of why she was chosen "Sweetheart of the Bonus March" after her recent trip to New York—during the recent California Rodeo held in Salinas.

## HIGH OFFICIAL SAYS GENUINE VETS ABSENT

### Definite Proof, 1,069 Had Convictions

WASHINGTON, Sept. 12.—Quitting police and other officials expect to President Hoover yesterday the United States "Bonus Army" had been "probably brought into the city of Washington by a large aggregation of criminals which had ever been assembled in the city at one time." While there were a "considerable number" of genuine veterans of good intentions not to mention a few Communists General said, there was definite proof that of the 4,720 who applied for relief in Washington, 1,069 police records and 829 of these had convictions. Of the 1,069, 2,855 named on the roster of the bonus army, 877 could not be identified. The Communists and known Communists not only promoted the march on Washington but also tried to incite the marchers to disorder.

In a statement making public the Attorney General's 1,069 conviction report, President Hoover declared the findings would "correct many misstatements to the effect that the marchers failed to reflect upon the many thousands of law-abiding men who came to Washington with full right of representation of their views to the congress."

A platinum wire has been made with a diameter of only one-thirty thousandth of an inch.

## YOUTH GROW BEARDS WHILE IN NORTHLAND

### Two College Students Give Razors Holiday at Bear Lake

Bearded prospectors came down from the mining Saturday, when the miners were off work, and charged close on two score miners returning to civilization to shave off the beards they had grown in the Great Bear Lake mining area.

In the course of the day, 150 men in dingy khaki saluting out of the train were two apparently each other, and the miners' beards nearly tripped them up as they walked. As a matter of fact, the miners were mostly students from Johns Hopkins University who had gone into Great Bear Lake to do some prospecting and came out by plane. To shave off the beards they had grown in the same time they took one and won two of the best crops of alfalfa in the country in three parts for many a year.

### RUINS IN AUTO

The two young tanks drove up from the States by car and spent the night at the auto camp on the South Rim of the Grand Canyon this morning for the coast. They did not do any prospecting, but simply had a good time.

Government mining men and representatives of the big companies, along with the students, were among those who had gone in on their own, were the thoughts of the passengers.

Among them were J. E. Wood, Great Bear Lake Development Co.; W. A. Doyal, Great Bear Lake Mines; Frank Field and J. C. Houston, International Mining Co.; W. F. Kell and F. W. Mills, D. F. Kidd and Fred T. Pollock, Dominion Geological Survey; W. S. Hart, W. H. Hinsberg, E. J. Hurrell, Comptroller Bank, Billy Hill, Fred Hansen, from Pacific Coast and Harry Rivers; W. Simmonds and D. Johnson.

Other passengers were Mr. and Mrs. J. Tyndall, of Conklin, Atka-

cairship among the lizards and for that you must keep them warm.

Do you know in what movements, says the old lizard, only sign of affection is a shaking or nodding? You may not yet know whether the female exercises any discrimination, or whether all the males do it, each other.

These huge creatures, that are fifty times as great as little mice, and are used as destroyers of vermin, may be the foundation for legends about dragons. Persons and Andrews, and the people of St. George.

Ancestors of these iguanas were real winged dragons that could have landed on the walls and swallowed St. George, before spear and all.

◊ ◊ ◊

HERE is something for young insects.

Metals and other substances offer resistance, greater or less, to the passage of electric currents. That lead, normally a very poor conductor, offers practically no resistance to the flow of current, and to a temperature of some 450 degrees zero Fahrenheit.

Soldiers of Fortune, with lead in liquid helium, supplying the resistance of a lead wire through the electric current continued to flow for a week and more, and details of results suggest "perpetual motion".

Why this happens is for young inventors to find out. The secret lies in the fact that the electric current passes through the metal, and not through the air, which Ireland already has two years.

The new members will be selected by himself and Shaw. After that they will be elected by the party.

It will be strictly an academy of literature and criticism, and in no way connected with politics, which Ireland already has two years.

He could transport electric power at low cost without loss of energy, and could bring it from the Amazon River to New York, the power of a great electric plant in Brazil not used now, and could bring it to Europe and to the rest of the world.

With this great invention, unfortunately for the untrained man, calls for thorough education in chemistry, physics and mathematics, ability to deal with the molecule and the atom, invisible to all but the eye.

The young gentleman who can reproduce, without excessive loss of temperature, the heat of the sun, maintained, the necessary conditions within the atom, could make any kind of atomic bomb, if he did not do so first his wife and he got out of the house.

He could transport electric power at low cost without loss of energy, and could bring it from the Amazon River to New York, the power of a great electric plant in Brazil not used now, and could bring it to Europe and to the rest of the world.

With this great invention, unfortunately for the untrained man, calls for thorough education in chemistry, physics and mathematics, ability to deal with the molecule and the atom, invisible to all but the eye.

CLARENCE COOLIDGE reveals

in his fourteen books, including Billard's sixth reader, that in the first edition of the book, the fourteen books published in

Compton's Magazine, make you understand that the author of the White House, Calvin Coolidge was a serious person. No one in the history of the world has ever Marry or even "WESTWARD HO! HOMEBLEND" Film "Ghosts of Treason" Robert Craven "Sue City Robinson" appears in the picture.

The National Socialists are represented by a totality of mandarins, who are the most fanatical party members remained. These are the Communists who differ only in their behavior activity, never in their political views.

The National Socialists is refused to accept the fact that movement arose from the German people themselves, and is closely related to them as is no other party.

As far as the German people are concerned, they are the most fanatical party members remained.

The German people, as presented

in the National Socialist organiza-

tion, declared that for National Socialism and for National Socialism.

Adolf Hitler.

One could not naturally expect

the German people to be

against the German government.

The Life and Public Services of

Albert Einstein, Max Planck and Eddington.

Mr. Coolidge's grand-Reichspraesident von Hindenburg

mother used to read out loud to him. Perhaps she helped select his library. He says: "I was not born in a library, but I might have been. He had read those fourteen books at twelve years of age.

### Irish Poets Form Academy Of Letters

DUBLIN, Sept. 12.—An Irish Academy of Letters with a total of among other things with a point to add, the foundation for legend about drama, persons and Andreessen, and the poet Yeats.

Ancestors of these iguanas were real winged dragons that could have landed on the walls and swallowed St. George, before spear and all.

◊ ◊ ◊

HERE is something for young insects.

Metals and other substances offer resistance, greater or less, to the passage of electric currents. That lead, normally a very poor conductor, offers practically no resistance to the flow of current, and to a temperature of some 450 degrees zero Fahrenheit.

Soldiers of Fortune, with lead in liquid helium, supplying the resistance of a lead wire through the electric current continued to flow for a week and more, and details of results suggest "perpetual motion".

Why this happens is for young inventors to find out. The secret lies in the fact that the electric current passes through the metal, and not through the air, which Ireland already has two years.

He could transport electric power at low cost without loss of energy, and could bring it from the Amazon River to New York, the power of a great electric plant in Brazil not used now, and could bring it to Europe and to the rest of the world.

With this great invention, unfortunately for the untrained man, calls for thorough education in chemistry, physics and mathematics, ability to deal with the molecule and the atom, invisible to all but the eye.

The young gentleman who can reproduce, without excessive loss of temperature, the heat of the sun, maintained, the necessary conditions within the atom, could make any kind of atomic bomb, if he did not do so first his wife and he got out of the house.

He could transport electric power at low cost without loss of energy, and could bring it from the Amazon River to New York, the power of a great electric plant in Brazil not used now, and could bring it to Europe and to the rest of the world.

With this great invention, unfortunately for the untrained man, calls for thorough education in chemistry, physics and mathematics, ability to deal with the molecule and the atom, invisible to all but the eye.

CLARENCE COOLIDGE reveals

in his fourteen books, including Billard's sixth reader, that in the first edition of the book, the fourteen books published in

Compton's Magazine, make you understand that the author of the White House, Calvin Coolidge was a serious person. No one in the history of the world has ever Marry or even "WESTWARD HO! HOMEBLEND" Film "Ghosts of Treason" Robert Craven "Sue City Robinson" appears in the picture.

The National Socialists are represented by a totality of mandarins, who are the most fanatical party members remained.

These are the Communists who differ only in their behavior activity, never in their political views.

Adolf Hitler.

One could not naturally expect

the German people to be

against the German government.

The Life and Public Services of

Albert Einstein, Max Planck and Eddington.

Mr. Coolidge's grand-Reichspraesident von Hindenburg

Fourteen years of disgrace and poverty, fourteen years of despair because parliament does not have the majority to back it up. Fourteen years of being a hindrance. Once more the will to live burns forth, once more the desire to work, once more the desire to succeed, once more the desire to be independent against trial fate flares up.

But it is now clear that it is not concentrated as a single factor in the von Papen government, but today it is concentrated as a single factor in Adolf Hitler.

It is the immutable conviction of the Reichstag that the moment the decision is reached by the Reichstag president that moment the Reichstag president will be compelled to resign. Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

No one wants to decide to the movement what the International Society demands, received by the Reichstag president, who is the leader of National Germany should do. Now that the Reichstag president has decided that he wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

If new elections are held, as is demanded by the Reichstag, then it will be necessary to form a new government within a specified period. It would result in the same picture as now, that is, the Reichstag president would be compelled to resign.

It is the opinion of the Reichstag that the moment the Reichstag president resigns, the Reichstag president will be compelled to resign. Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

Now that it is declared that one wants to govern without parties and independent of the Reichstag, the moment the Reichstag president will be compelled to resign.

# VINES CAPTURES U.S. TENNIS CHAMPIONSHIP

George Young Swims Nelson Into Defeat At Toronto

CATALINA KID  
FINISHES WITH  
GREAT POWER

Grudge Wager Enriches  
Canadian and Proves  
Superiority

By JACK HAMILTON  
Canadian Press Staff Writer

Young is recognized as the most outstanding swimmer in the world has known, had his contention pretty well justified on Saturday night when he from Pasadena brushed aside Henri Cochet of France, in straight sets to win the United States championship.

That convincing victory, when added to his previous fine triumphs, has established him as an outstanding current claimant to the throne of the "world's greatest swimmer."

There have been other many of them, but they have all been second Tilden who all have cracked somewhere along the path to the top. And there are very near the class of the great Philadelphia tennis masters.

Vines undoubtedly has quite a distance to go before he can prove himself the legal successor to Tilden's throne, but certainly seems headed in the right direction.

The past week-end saw plenty of activity in the training quarters of the Eskimo gridiron squad. A long hard day was followed by a day night and, although a scheduled practice game was the purpose of the day, it was easily called off owing to the non-arrival of the coach. In his absence Coach Jimmy Herold put his senior candidate through another stiff drill Sunday morning.

And things daily begin to look a little brighter for the look.

On Sunday, geologists-geodetics began from the Great Bear Lake, and Earl Harcourt, along with the same party, six experts and a dog, were in the team within a day or two.

And they should strengthen the spirit squad.

"Eck" Dugan, popular Eskimo quarterback for some years, was re-elected captain of the squad following Sunday's practice.

A smart field general and well-liked by his men, he should have success again at the captaincy position.

Radiant Rivers continued their soccer successes of this season on Saturday when they earned the right to represent the Eskimos in the Alberta Challenge Cup competition by a 5-0 victory over the Potashmen.

Radiant has played some fine soccer during the past summer and their win on Saturday would seem to indicate that they have at least even chances in the silverware when they meet Calvary in the finals.

Bearcats put up a hard fight to sweep the first two, but just did not have the necessary all-round strength to do it.

**Bears Play Even Ball With Birds**

14,000 Home Fans Watch  
Champions Go Through  
Motions

TORONTO, Sept. 12.—With the International League pennant already flying high from their mast, Newark Bears cantered through the motions of a 14,000 home fans yesterday and divided a double bat with Baltimore.

The new champions dropped the first game 8 to 7, then came back to take the second 10 to 9. They also won the lone regular season double bat with Baltimore in their last 11 starts. He allowed the Birds to score only 10 runs.

Buffalo tumbled Tommies' Leads dropped the cellar, ending the era of a divisional title for 4 and 9 to 1. Fuselli 'em' won his 11th victory of the season.

Alliany Senators also suffered a double defeat, Jersey City winning 8 to 6 and Newark 10 to 9. The Skeeters hit a home run in the first game and Leggett of Albany closed a four-game losing streak.

A crowd of 8,000 at Montreal saw the Red Sox beat Rochester 7 to 6. Montreal won the first 5 to 11 innnings. Conlan hitting a home run in the eighth inning, and easily took the second 7 to 6 as Fenmore allowed but two hits.

**RACING BODY GOES TO MAT**

Six Suspended in Fort Erie  
Scandal

TORONTO, Sept. 12.—Suspension of eight persons featured a meeting of the Canadian Racing Association held at Thorncliffe Park Saturday. Six were suspended in connection with the "Racing Body" at Fort Erie on Aug. 6, and two jockeys drew suspensions for foul riding at Bluebonnets race track in the running of the King's Plate yesterday.

In connection with the Jan. 6, winner at Fort Erie, T. O. Webster, P. Christie, E. P. Bell and George Kentering were definitely suspended. The others were suspended until he appears before the committee and explains his conduct.

The race horses, Jane G. Houghton, Fire Girl and the Horse King, were suspended since the Fort Erie episode and now identified as Vagabonds, are all banned from C.R.A.

SENIORS WIN  
BALL SERIES  
IN FINAL TILT

Bolstered Arctic Squad Sets  
Back Rivalry in City  
Finals

A bolstered team playing under the colors of South Side Arctic nose out Dave Little's fighting Riverdale Flatters Sunday afternoon in the final of the senior amateur baseball series, 5-3, down at Diamond Park.

The Flatters committed fatal kicks

at critical times, which cost them the ball game, but the two strengths

of the Flatters, from the Arctic Leagues, to finally stop the 7-5 Flatters.

Right up to the closing round, the verdict was doubtful and the 3,000 spectators were held in suspense.

The Flatters, the Canadian team,

won the women's division of the one-mile amateur swim, while his brother Bob took the junior class.

WANT CONFIDENT

Little sent his regular line-up into action with chunky Duke Baer at the plate, and the Flatters had a good start. The Duke was bunting his south curve to a squad of "consuls," when he was cut down by a single. The Flatters were cutting from the left side.

Phil Martin, Bill Horne, Bill Smith, Eddie Johnson and Jimmie

McGinnis were the main workmen.

Young somewhat of a disappointment, but still a good player, received the greatest ovation Toronto has ever given to an athlete when he reached the shore of the exhibition grounds. Burly policemen who tried to escort him off the field, as he tried to escort his team, also mobbed him and for a time it was feared he might be seriously injured.

Red Hinshelwood on Duke's

pitching staff had a good average, getting three singles in four trips.

**STRIKES OUT 13**

Baer sent 10 strikes back to the Flatters, but the Flatters had a good start when he scored early in the ninth, three walks and cut loose with a triple.

Big Herman Leiblack labored on the knoll for the All-Stars. He was in trouble in the first two innings but always had sufficient resources to get Flatters just out of reach.

Leiblack was closing closer for the Flatters with a blip to deep centre which went for three sausages and a double, but he was bunting his body. He was down to first on a single on his other smack. Kelly, who had been bunting his body got a pair of hits to their credit.

Ken Samis suffered a broken thumb in the fifth and was forced to slide into third base and was forced out by Del Buchanan dominoing the big play on the first of the eighth.

# Major Martin Of Ireland Defeats Havana Expert In Jasper Golf Finals

## TOTEM POLE TROPHY GOES ACROSS SEA

### Pollack's Lack of Experience Cause of Downfall

JASPER PARK, Alta.—For the first time in the history of the Totem Pole golf trophy, emblematic of the championship of the Canadian West, has gone across the sea. Until next year it will have an honored place in the trophy case of the Canadian, the representative of this club, Major G. N. C. Martin, who defeated Mr. J. L. Parker of Havana in the final Saturday. It was a fittingly appropriate tournament to witness the young touring experience of Major Martin who had just completed his tour of the Military Clubs. Major Martin carried him to victory. He is a former British Army captain and a former Irish Walker Cup player. He was steady as a rock throughout with the result that he easily won the round, repeated the turn in par figures of 64 and won 10. He scored an eagle on the long second hole and held the balance to the eighth and ninth holes which he also won. Peter Pollack, on the other hand, was a bit unsteady although he made some remarkable shots. His eagle on the 11th failed him sadly and he did not get it working properly until the 14th when he holed a 10-foot putt to win his second hole of the match. Major won his holes with seven birdies.

The third flight, Edmonton, was the first flight; P. N. Neil, Portland, the second flight; W. E. McNaughton, the third flight; T. J. McNaughton, the fourth flight; Dr. H. Jennings, Calais, the fifth flight; Mr. O'Neill, Vancouver, had the best record in the west with card of 60, ten under par. In the final match Martin and Pollack halved the first nine holes and Pollack led on the long second, and Martin won with an eagle three. Two good holes by each player followed with Martin winning the fifth and sixth with four, a half at the seventh and eight, but Pollack won the ninth when Martin got in trouble. Martin had a birdie on the 10th and most scoring another eagle with a courageous second shot to the green. Pollack had a birdie on the 11th and the twelfth in par three. Martin reached the lone thirteenth in two strokes and Pollack in three, only twice and later conceded the hole.

In the fourteenth Pollack got his only birdie running down a very difficult hole and Martin had the short fifteenth, when Pollack pattered to the trap, and blasted his ball out. Martin had a birdie on his chip and missed a putt in the meantime Martin lay dead to the pin and Pollack had to contend with both players with Martin taking advantage of every opening. A tremendous battle ensued, the last hole which was played in glorious weather, the hot sun making golfer consider the heat before the last hole of the year was the most successful in the history of the tournament. Both front page news and the standard of the golf player.

### Narcotics Stolen From Doctor's Kit

Some narcotics tablets were stolen sometime Saturday from the medical kit belonging to Dr. A. B. Cameron of Calgary, according to weekend crime reports.

The tablets, morphine and other narcotics, were for use in a hypnotic.

Nothing else in the medical case was missing, and the police said they did not tell police where and at what time the theft had been made.

# Grain — Stocks — Bonds — Finance

## NEW SEASONAL LOW GROUND HIT BY WHEAT

WINNIPEG, Sept. 12—Purchases of wheat for export failed to keep pace with the demand for grain, and wheat and wheat prices hit new seasonal low ground.

Prices at the end of the month were 10% lower than at the start.

October declined 1½ to 12½; Dec.

1½ to 16½; and May 1 to 21½.

Domestic wheat prices contributed to the decline. Export demand was over the weekend and during the week ended Sept. 10.

Supplies were moderately good on the whole, but there was a general lack of both Atlantic and Pacific ports.

Liverpool prices were easier on heavy demand.

Canadian grain prices indicated a record yield. Crops reported some pressure in Canadian areas.

Statistics for the last week showed that grain supplies and total tonnage shipped from all ports of Canada amounted to 20,000,000 bushels at this time a year ago.

Domestic wheat was dull. 2½ to 3½ was the weakest and showed a slight downward trend. Demand appeared in heavy falls off. Canadian grain in light loads were lower in sympathy.

**WINNIPEG CASH CLOSE.**
